

High School Chemistry Activity

Topic: Balancing Equations

Objective

Students investigate concepts related to balancing equations.

Materials

- Lab notebook
- Chemistry text
- Markers
- Chart paper
- Calculator

Procedure

1. Introduce balancing equations.
2. Discuss examples and uses.
3. Demonstrate or simulate experiment.
4. Record observations.
5. Present findings.

Observation / Notes

Observation	Notes

Discussion Questions

- What is balancing equations?
- Where is it used?
- What did you learn?
- How can it be applied?

Extension Activity

Design a mini experiment showing balancing equations.
