

# High School Chemistry Activity

**Topic:** Elements & Compounds

## ***Objective***

Students explore concepts related to elements & compounds.

## ***Materials***

- Lab notebook
- Chemistry text
- Markers
- Chart paper
- Calculator

## ***Procedure***

1. Introduce elements & compounds.
2. Discuss real-life examples.
3. Observe demonstration.
4. Record observations.
5. Present results.

## ***Observation / Notes***

Observation	Notes

## ***Discussion Questions***

- What is elements & compounds?
- Where is it used?
- What did you observe?
- Why is it important?

## ***Extension Activity***

Create a simple model demonstrating elements & compounds.
