

High School Earth & Space Science Activity

Topic: Atmosphere Layers

Objective

Students explore and understand atmosphere layers concepts.

Materials

- Notebook
- Science textbook
- Markers
- Chart paper
- Internet

Activity Steps

1. Introduce atmosphere layers concept.
2. Discuss real-world examples.
3. Observe diagrams/models.
4. Record observations.
5. Present findings.

Observation / Notes

Observation	Notes

Discussion Questions

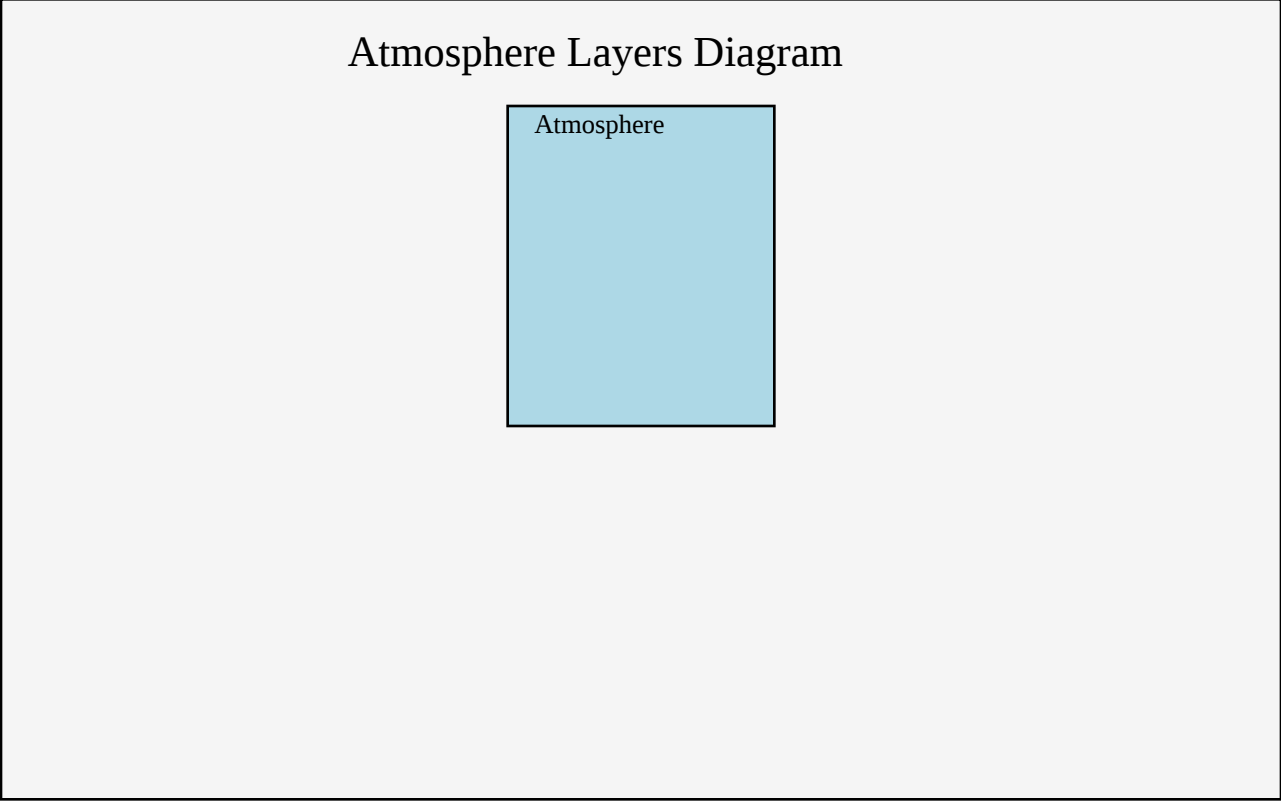

- What is atmosphere layers?
- Why is it important?
- Where do we see it in real life?
- What did you learn?

Extension Activity

Create a model or diagram showing atmosphere layers and present.

Atmosphere Layers Diagram

Atmosphere

The diagram consists of a large, light gray rectangular background. Centered within this background is a smaller, light blue rectangular box. The word "Atmosphere" is written in black text at the top left corner of the blue box.
