

High School Math & Statistics Activity

Topic: Statistics in Real Life

Objective

Students explore and apply statistics in real life concepts.

Materials

- Notebook
- Calculator
- Graph paper
- Ruler
- Markers

Activity Steps

1. Introduce statistics in real life concept.
2. Solve example problems.
3. Analyze real-world scenarios.
4. Record solutions and observations.
5. Present findings.

Observation / Notes

Problem	Solution/Notes

Discussion Questions

- What is statistics in real life?
- Where is it used in real life?
- What patterns did you observe?
- How can this help in decision making?

Extension Activity

Create a real-life project using statistics in real life and present.

Statistics in Real Life Diagram

Data

The diagram consists of a large, light gray rectangular container. Inside this container, at the top center, is the text 'Statistics in Real Life Diagram'. Below this text, also centered, is a smaller green rectangular box. Inside the green box, at its top center, is the word 'Data'.
